

Registered Building Inspector Vacancies

salus
Building Compliance
with Integrity.

About Us

We are a specialist consultancy dedicated exclusively to building control and fire safety. Focusing on these two disciplines, we deliver a high-quality, expert service to a client base made up of professional organisations and people.

Our technical staff are fully supported by a dedicated administration team, ensuring they can concentrate on what they do best - providing a practical, compliant, and commercially aware service. The management team are highly experienced, with each member having a proven track record of delivering a building control service themselves.

As an Employee Owned Trust, we place long-term quality, professionalism, and collaboration at the heart of everything we do, creating a stable, supportive environment where expertise is valued and shared.

About the Role

We are looking to appoint both:

- ➔ **Qualified professionals** who are seeking a move to a new organisation
- ➔ **Developing professionals** registered at 2D and higher who are motivated to progress their careers under the guidance of experienced Registered Building Inspectors
- ➔ Roles are available **nationwide** and we would particularly like to hear from RBIs across **Birmingham, Essex to East London, and Oxfordshire** with a class 3G/H or 2F registration.

What Makes Us Different

- ➔ We **only provide building control or fire safety services** - no competing disciplines or diluted focus.
- ➔ A dedicated **administration team** supports all technical staff, allowing you to focus on professional delivery.
- ➔ Our **management team is technically experienced**, with first-hand service delivery backgrounds.
- ➔ As an **Employee Owned Trust**, everyone has a genuine stake in the long-term success of the business.

Ready for a new challenge?

Send your CV to recruitment@salusai.co.uk

Full-time and part-time roles available (4-5 days per week).
